

CENTZIBLE CLEANING SOLUTIONS

#100 CONDITIONER

AUTO SPRAY RINSE AGENT

Containing a sun-shielding compound, petroleum distillates, and water-beading drying agents, **#100 CONDITIONER** is a concentrate that protects, shines, and helps dry vehicle surfaces without streaking. It is especially superior when used in final rinse and in conjunction with an air-dry blower system. **#100 CONDITIONER** is a highly concentrated agent designed for use in all types of automatic and bay-type self-service car wash installations. Its concentrated formula allows you to use less for easier jobs.

This product will beautify and protect the life of any car's finish and will reduce the time and labor costs of final manual drying of vehicles after exiting the car wash. **#100 CONDITIONER** produces foam when used in self-service bay wands; however, in rinse arches of tunnel car washes or in automatic rollover washes, foam can be reduced to little or none, depending on desired dilution. Its no-streak formula protects, shines, and dries vehicle surfaces.

ORDER #1A.12

AREAS OF USE

PHYSICAL PROPERTIES

CHEMICAL TYPE:	Vehicle wash
COLOR:	Red
PHYSICAL STATE:	Liquid
ODOR:	Cherry
SPECIFIC GRAVITY:	0.9490
SOLUBILITY:	Complete
