

CENTZIBLE CLEANING SOLUTIONS

MACH 1

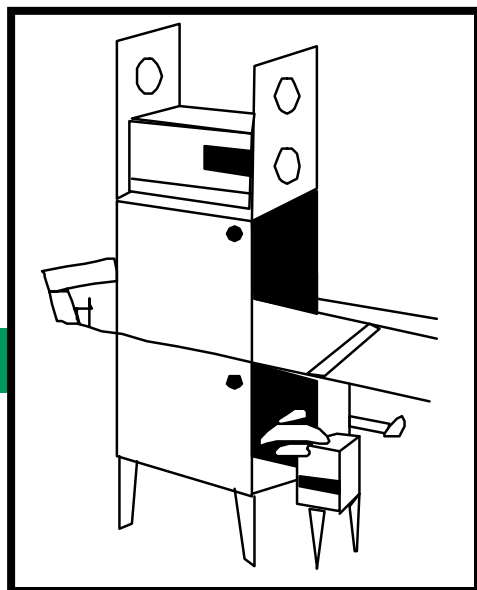

CHLORINATED AUTOMATIC DISHWASHING DETERGENT

MACH 1 machine dish detergent is formulated as a white, free-flowing chlorinated powder for machine dishwashing systems. Its controlled foaming action means there are no smothering suds to clog your machine or impede washing action. **MACH 1** powers off food soils, removes stains from ceramic and plastic, and suspends soil and calcium, preventing re-deposition on glasses, dishes, and silverware.

ORDER #2F.30

ADDITIONAL PRODUCT INFORMATION
