

CENTZIBLE CLEANING SOLUTIONS

POLAR SHINE 24%

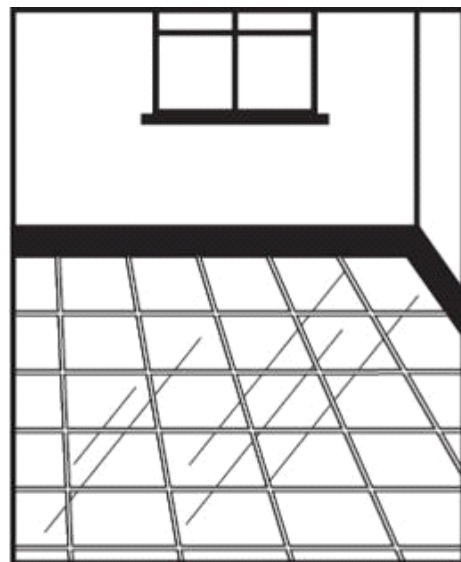

FLOOR FINISH

POLAR SHINE 24% is a combination of cross-linked polymers and high solids, which give it the highest gloss and best possible wear characteristics. It resists dirt pick-up, scratching, scuffing, and black marking. A thermoplastic polish, **POLAR SHINE 24%** responds well to ultra high-speed propane buffing as well as battery pack 2000 rpm buffing. **POLAR SHINE 24%** can reduce your regular floor care maintenance program due to its long-lasting high shine and excellent durability. If desired, floor can be cleaned daily with a neutral cleaner.

ORDER #1J.35

ADDITIONAL PRODUCT INFORMATION

- Can be used on all types of hard flooring
- Contains 24% actives
- Meets CSMA floor polish slip resistance requirements employing ASTM test method D2047-82 of 0.5

PHYSICAL PROPERTIES

CHEMICAL TYPE:	Floor finish
COLOR:	White
